

# AI-enhanced Architecture

An intensive **Summer School** exploring how artificial intelligence reshapes architectural workflows — led by architects from MVRDV.

**July 13–17 2026**

**Department of Architecture and Design,  
Politecnico di Torino, Italy**

— Castello del Valentino, Viale Mattioli, 39 - 10125 Torino TO

The AI-enhanced Architecture Summer School explores how artificial intelligence can be systematically integrated into each phase of the architectural design process, reinforcing and expanding the creative and critical role of architects and designers. Through direct engagement with contemporary design methodologies and evolving project workflows, and with the contribution of guest faculty from MVRDV, participants will investigate how AI-driven tools are reshaping strategies, reimagining design approaches, and influencing decisions related to spatial organisation, structural logic, material articulation, and environmental and lighting design.

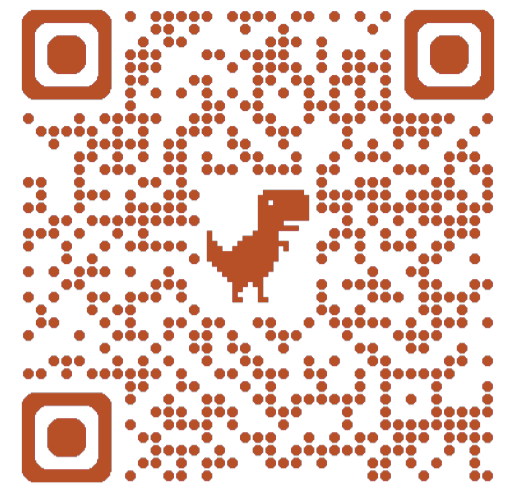

## PROFESSORS

**Lorenzo Mattozzi**, Architect, Associate at MVRDV  
**Fredy Fortich**, Architect & Engineer, Sr. Technical Leader at MVRDV

## TUTORS

**Federica Joe Gardella**, Architect, PhD  
**Enrico Pupi**, Architect, PhD Candidate  
**Luciana Mastrolia**, Architect, PhD

**APPLY HERE!**

**Deadline: May 30, 2026**

**May 30, 2026**

Application deadline: ~~May 17 2026~~

Participation fee: € 295

Credits: 2 CFU, 2 ECTS (25 hours)

Course language: English
