

Circular Design Sprint 2025

An aerial photograph of a construction site. The ground is dirt and covered with various materials and debris. In the foreground, there are large piles of brown and grey tiles or panels, some of which are broken. To the left, there are several large white bags and stacks of wooden planks. In the background, there are more stacks of materials, including metal rods and pipes. A white van is parked on the right side. In the far background, a road with a red and white striped barrier and a blue car is visible.

"From PoliTO ventilated facades to
DISAT courtyard furniture prototypes"
