

# State of AI at MVRDV

OPEN LECTURE & EXHIBITION  
DESIGN / TECHNOLOGY / SOCIETY

The Open Lecture is part of the Summer  
School “AI-enhanced Architecture”

Friday September 19th, 2025

15:00–18:00

Salone d’Onore

— Castello del Valentino, Viale Mattioli, 39 - 10125 Torino TO

The lecture will showcase MVRDV’s work, with a focus on the recent integration of AI in both the design and workflow processes. It will cover how generative AI has become an invaluable tool in architecture, enhancing everything from brainstorming and research to design refinement. The lecture will emphasize MVRDV’s commitment to leveraging AI’s potential through tailored workflows, enhancing precision and control in design while incorporating participatory and collaborative strategies.

By combining experimental and practical projects, MVRDV continues to develop multimodal, iterative approaches that explore new ways to shape architectural projects and communicate design narratives.

## PROGRAM

### 15:00–17:00 OPEN LECTURE (Salone d’Onore)

*Institutional greetings and introduction*

Michele Bonino

*What is hidden behind the AI hardware systems?*

Giuseppe Fanuli & Crownlabs Team

*State of AI at MVRDV*

Lorenzo Mattozzi & Fredy Fortich

*Round Table and Q&A session*

*Presentation of the Summer School outcomes*

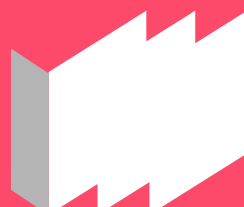

### 17:00–18:00 EXHIBITION OPENING (Sala delle Colonne)

*Final reviews and announcement of Summer School winners*

**Politecnico  
di Torino**

Dipartimento  
di Architettura e Design
